Brite named to CRN's Managed Service Provider 500

Brite named to CRN's 2019 Managed Service Provider 500 Security 100 category -

[ROCHESTER, NY - June 6, 2019]: Brite, an Upstate New York managed service provider and IT solutions integrator is recognized on CRN's Managed Service Provider 500 list in the Security 100 category.

For the third time, the distinction recognizes Brite's dedication and forward-thinking approach in providing managed services. Focused on protecting client's data and compliance requirements through proactive alerting and action, showcased through Brite's managed service offering, BriteStar.

Brite's methodology prioritizes constant innovation to address the most resource taxing areas of IT. An established combination of people, process and technology helps off-load IT services and aid in tactical areas, allowing companies IT departments to focus on strategical projects.

 "Brite is honored to be included on CRN's 2019 Managed Service Provider 500 list for the third time", said Justin Smith, President and COO of Brite. "Over the past 10 years, we have diligently worked to provide effective, secure and cost-efficient IT solutions for customers of all sizes. Our managed service offering, BriteStar, allows us to provide enterprise level support to the SMB market at an affordable fixed per-user cost."

The ever-changing security posture demands a proactive incident response approach. At the forefront of emerging technologies, next-gen endpoint service, managed NAC and managed SIEM create a line of defense for organizations.

About Brite
