Brite Named Top Managed Service Provider on CRN's MSP 500 List for the Fifth Time

Brite awarded in the Security 100 category

ROCHESTER, N.Y., MONDAY, FEBRUARY 22, 2021 – Brite, an Upstate New York managed service provider and IT solutions integrator is recognized on CRN's Managed Service Provider 500 list in the 'Security 100' category for cloud-based security services expertise.

As a fifth-time recipient since 2016, the award recognizes Brite's dedication to continuously improving its managed IT and security services and establishing itself as a longstanding player in the MSP and MSSP space.

After launching a new, state-of-the-art Network Operation Center (NOC) and Security Operations Center (SOC) in 2020, Brite's managed services are innovative solutions that help relieve organizations of tolling IT tasks while increasing security against the latest cyberattacks.

"To be named on CRN's Security 100 list for the fifth time is an honor" said Justin Smith, President and COO of Brite. "It's a true reflection of the hard work our team has dedicated to off-loading client's tactical security tasks. We're incredibly excited to continue our maturity journey alongside the evolving landscape, our growing team and new Network and Security Operations Centers."

From CRN, the MSP 500 list is CRN's Managed Service Provider 500 list recognizes the top technology providers and consultants whose forward-thinking approach to providing managed services is changing the landscape of the IT channel.
