Brite Partners with Arista Networks

Expanding its Growing Enterprise Cybersecurity Partner Portfolio

Rochester, NY – December 2, 2020: Brite is pleased to announce its latest cybersecurity partner, Arista Networks. Arista is an industry leader in cognitive cloud networking for mission-critical data center and campus environments, reflected by its top place in [Forrester](#)'s ranking for open, programmable switches.

This partner addition expands Brite's cybersecurity offerings to now provide networking and switching solutions that meet today's growing demands for advanced switches to distribute data and applications across cloud and hybrid environments.

Trevor Smith, VP of Sales and Marketing commented, "We're ecstatic to now have Arista in our lineup of cybersecurity solutions. There's a clear need for a modern networking and switching solution to support private data centers and cloud platforms. We're confident that Arista's platform is that solution."

Brite partners with innovative, leading technologies to solve our customers' pressing challenges while maximizing the investment in other tools. Arista has a strong integration suite allowing for complete solutions.

About Brite

People and technology are at the core of everything we do. The Brite team is committed to proactively protecting communities and organizations through innovative technology solutions delivered by our talented team. We recommend thoroughly evaluated industry-leading technologies and pair them with proven processes to assist our clients in effectively achieving their goals and objectives. At Brite, **good enough is never enough.**
